JOB ANNOUNCEMENT OPERATIONS AND MAINTENANCE MANAGER

Tri-Dam Project is looking for an Operations and Maintenance Manager in our administrative office in Strawberry, California. Tri-Dam is a joint venture (partnership) between Oakdale Irrigation District and South San Joaquin Irrigation District.

The starting monthly salary range for this position, based on level, is \$12,865 - \$17,077, is commensurate with knowledge, skills, education, and experience as it relates to the position, and includes a comprehensive benefits package including CalPERS retirement.

SUMMARY

The ideal candidate will have several years of experience in dam safety and regulatory compliance, as well as knowledge of project and construction management basics. This position is responsible for all dam safety related activities and communications with the Federal Energy Regulatory Commission (FERC). This position reports to the General Manager.

This position will serve as the Chief Dam Safety Engineer (CDSE). The CDSE will lead, plan and coordinate work with internal partners and external partners (consultants, contractors, emergency management agencies, resource agencies and regulators). Self-starting is a must! Responsibilities include a variety of project management, contract management, engineering evaluations and reviews, but are not limited to dam safety, public safety, environmental and regulatory compliance. This is a supervisory level classification with functional and procedural responsibility for the operations and maintenance of hydroelectric plants.

TRAINING AND EXPERIENCE

A Bachelor's degree from an accredited college or university in engineering with a focus on dam safety and FERC license conditions is preferred.

WECC/NERC training and/or certification is desirable.

A minimum of ten (10) years of increasingly responsible experience in the operations and/or maintenance of hydroelectric facilities, including three (3) years of supervisory experience, providing direction to other staff, and a high level of independent judgement. Any combination of experience and training that demonstrates the required knowledge, skills, and abilities may be qualifying. Applicants that do not fully meet the requirements are encouraged to apply.

Strong analytical skills in hydro electric industry (data for hydro, water storage, water flow, dam safety instrumentation and large civil infrastructure).

Knowledge of hydroelectric operations, maintenance, testing, troubleshooting, performing modifications, and equipment repair of hydroelectric generating facilities.

Relicensing experience is desired.

Possession of, or ability to obtain, an appropriate valid California Driver's license. Ability to drive in snow and icy conditions. *Our headquarters will be relocating from Strawberry, CA to Sonora, CA in 2024.*

This position requires a post-offer drug test and background check.

Note: Applicants must be authorized to work for any employer in the United States. Tri-Dam is unable to sponsor or take over sponsorship of an employment Visa at this time.

BENEFITS

CalPERS Retirement
Health / Dental / Vision coverage
Life Insurance
Short Term and Long Term Disability
Paid Holidays and Vacation
Cafeteria 125 - Flexible Spending Account
457(b) Deferred Compensation

This posting opens Friday, March 29, 2024, and will remain open until filled.
