TRI-DAM PROJECT • NOW HIRING

HYDROELECTRIC P.A.C.C.T.S. TECHNICIAN JOURNEYMAN

FULL-TIME • NON-EXEMPT • REPORTS TO LEAD TECHNICIAN

Keep critical hydroelectric systems safe, connected, and running.
Pay Range: $60.86 - $73.98 per hour DOE
IBEW 1245

Perform skilled protection, automation, control, communication, testing, and security maintenance across power generation, water conveyance, and irrigation facilities.

WHAT YOU'LL DO

- Install, test, repair, and calibrate protective relays, controls, instrumentation, and electronic systems.
- Maintain SCADA databases and RTU points; design and program automated operating systems.
- Support microwave, base-band, and mobile radio communications.
- Troubleshoot access control, CCTV, alarms, generators, rotors, and stators.
- Design and modify circuitry; read and update blueprints and schematics.

WHAT YOU BRING

- High school diploma or GED.
- Three years of journey-level electrical or industrial electronics experience involving installation, calibration, maintenance, troubleshooting, repair, and modification.
- Strong knowledge of electrical/electronic systems, SCADA, radio communications, protective relays, controls, safety practices, and electrical codes.
- Ability to interpret technical manuals, blueprints, and schematic diagrams.

IMPORTANT REQUIREMENTS

- Valid, current California driver's license.
- Residence within 60 miles of the Strawberry office.
- Availability for emergency callouts and mandatory overtime.
- Ability to work indoors and outdoors, around high-voltage equipment and moving machinery, in confined spaces, and to lift and carry up to 50 pounds.
